BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWINGS

An embodiment of the invention will be described in more detail below with reference to the drawing.

Fig. 1 is a perspective view of a cartridge having two chambers, and a static mixing device, shown detached from the cartridge.

Please remove the following paragraph starting at page 8, line 20:

——— Figure 1 shows a cartridge, shown generally at 10, having double barrels 12 and 14 and plungers 16 and 18. A static mixing device 20 may be attached to the double barrels 12 and 14 of cartridge 10, for mixing the contents of barrels 16 and 18. The static mixing device 20 has an application opening 22. The two components of the covering composition are contained in the barrels 12 and 14, pressed by plungers 16 and 18 through the static mixing device 20 through application opening 22.
